MEMORANDUM FOR: Deputy Assistant Director, OSA

SUBJECT: Transfer of EAD Projects to OEL

25X1A

1. [] I prepared the attached memo for Ledford's signature which he apparently refused to sign. At that point I washed my hands of EAD pending reaffirmation from Colonel Ledford that it would be my concern. I have, however, checked with [] on this date to determine whether or not the projects had in fact been transferred to OEL, and it appears the transfer has been completed.

Instead, [] will be used solely to measure or determine the TALL KING receiver sensitivity which is in effect an ELINT objective and hence the responsibility of George Miller.

3. To answer your question then, I feel the matter has been "squared away" since Colonel Ledford did not wish to take issue with it. However, I am positive that he has had a meeting of the minds with [] regarding my role in life since [] now sends me a copy of everything he writes including a list of his activities, and has also taken the time to call to insure that I have no question regarding his activities.

4. Although we will apparently continue to bear the expenses of these programs for the remainder of the fiscal year, [] has assured me that George Miller will assume programming responsibility for fiscal year 64.
